

KRT Radionics Workshops: **Chicago, Illinois**

Kelly Research Technologies is very proud to support the **U.S. Psychotronics Association's 40th Annual Conference**, to be held in Chicago on **July 20-22, 2018**. The USPA is a non-commercial, not-for-profit organization that supports research in "psychotronics" - the science of mind-body-environment relationships, and interactions of matter, energy, and consciousness. Because the USPA is dedicated not just to radionics, but also the broader spectrum of esoteric phenomena, this meeting will present research and information from a wide variety of disciplines. The theme of this year's conference is ***Mind, Matter, and Aether: Applications of Radionics***.

KRT founder Peter J. Kelly was a founding member of the USPA in 1975, and KRT's Ed Kelly has been a member of the USPA's Board of Directors since 2011. For more information about the USPA and the 2018 conference please visit: www.psychotronics.org.

Immediately following the USPA conference, on **July 23 and 24**, KRT's Ed Kelly will be deliver **Basic Radionics**, a two-day course covering the fundamentals of radionics, including analyzing and balancing of soil and water samples using a Hieronymus-type variable capacitance radionic instrument. This hands-on workshop will equip participants with the tools needed to immediately apply radionics at their homestead or farm. Space is limited, so register to participate today!
