

## KRT Radionics Workshops: Chicago, Illinois

Kelly Research Technologies is very proud to support the **U.S. Psychotronics Association's 41<sup>st</sup> Annual Conference**, to be held in Chicago on **July 26-28, 2019**. The USPA is a non-commercial, not-for-profit organization that supports research in "psychotronics" - the science of mind-body-environment relationships, and interactions of matter, energy, and consciousness. Because the USPA is dedicated not just to radionics, but also the broader spectrum of esoteric phenomena, this meeting will present research and information from a variety of disciplines. The focus of this year's programs will be ***The Art & Science of Energy Healing***.

KRT founder Peter J. Kelly was a founding member of the USPA in 1975, and KRT's Ed Kelly has been a member of the USPA Board of Directors since 2011. At the 2019 conference, Ed will present ***Energy + Resonance = Healing: Understanding the Radionics Equation*** to the membership, participate in panel discussions, and showcase KRT's newest tools and toys in the exhibitor area.

For more information about the USPA and the 2019 conference please visit: [www.psychotronics.org](http://www.psychotronics.org).

Immediately following the USPA conference, on **July 29 and 30**, Ed Kelly will put the FUN in "fundamentals" with the **Fundamentals of Radionics**, a two-day course designed to introduce the core functions of practical radionics: analyzing, balancing, and potentizing, using two-dial Hieronymus-type radionic instruments. This hands-on workshop will equip participants with the tools needed to immediately apply radionics at their home or farm. Space is limited, so register today!
