## *View from the Dome*

### Hello Brothers and Sisters!

Let me begin by giving a huge round of thanks to each and every one of you for bringing us to this glorious day, our **first anniversary** doing business as Kelly Research Technologies! In the past year we have shipped large and small radionic analyzers to points across the country and around the world, put them in the hands of everyone from brand new beginners attending their first classes to seasoned farmers and ranchers who use radionic devices to **assess and balance the subtle energy levels of their crops, livestock and water** on a daily basis - healthy herds raised without the “benefit” of the usual lifelong stream of growth hormones and antibiotics prescribed by “modern” agricultural practices.

We have dispatched BETAR sound systems to wherever stress reduction and pain relief are needed, using music and pulsed frequencies to sonically melt away deeply held patterns of physical tension, mental anxiety or sorrow. Giving new life to body, mind and spirit – BETAR is truly the **sound of relaxation!**

Most of all we have learned from you, spoken with you about your projects, your plans and your concerns. We have responded by combing the planet for ways to improve, expand and increase the impact of your radionic research.

What have we found?

- Dishwasher safe, non-contaminating **300 ml Pyrex Griffin beakers** sized to fit exactly in your standard well.
- A source for **top quality resveratrol** compiled from both knotweed and grapes into a reagent-grade capsule.
- A new book – an exploration of **music and health** by healer, musician and researcher Alana Woods.
- The Handheld Signal Generator – an easy-to-use instrument that allows you to directly integrate **experimental electromagnetic frequencies** into the scalar waveforms emitted by your Radionic Analyzer.
- A couple of excellent volumes on experimental e-mag frequencies, including McInturff’s *Electroherbalism Frequency Lists* and Dr. Nenah Sylver’s exhaustive *Handbook of Rife Frequency Healing*.
- Most exciting of all, a new DVD from scalar energy pioneer **Colonel Tom Bearden** that answers questions about the cutting-edge physics - the “why and how” behind radionics - that you did not even know you had!

Finally, I am proud and happy to promise that the best is yet to come! We are currently working on designs for several brand new devices that will allow you to **erase the boundaries** between scalar radionics, conventional electromagnetism *and* acoustic sound in your laboratory. At last, researchers will be able to focus the benefits of three of the core vibratory energy sciences into one project or system.

Stay tuned to this channel for more information as it develops!

**OUR MISSION** is to put top quality scalar and phase conjugate technology in the hands of the vast community of radionic, psychotronic and other “subtle energy” researchers and practitioners.

**Meet Alana Woods**, an artist, musician and healer who makes her home in the Sandia Mountains in New Mexico. With classical training in piano and harp, a college education in art, study with leading pioneers in the science and art of music healing, and service as a Unity minister and several healing modes, she has focused her prime interest in the relationship between music and healing.

Ms. Woods published a book in 2003 - *The Healing Touch of Music: An Exploration*. Written in uncomplicated language, Alana introduces the deeper concepts of music and health by describing her personal journey to discover and utilize music for the healing of body, brain and consciousness. Additional chapters focus on the work of several well known pioneers in sound/music healing.

Interwoven throughout the book and attached teaching CD are highlights exploring the curative uses of prescriptive sound from both western and nonwestern cultures to utilize the amazing power of sound to bring health and wholeness.

***The Healing Touch of Music: An Exploration*** 128 pgs + teaching CD

**Available now for just \$21.95!**

### Kelly Research Report Goes Quarterly!

After much deliberation we have decided to change the publication frequency of the Kelly Research Report from bimonthly to quarterly.

We realized while drafting the big end-of-the-year double issue that the larger page count afforded us a huge increase in flexibility with regards to article length, variety and the ability to develop broader themes.

For these reasons we are migrating to a 12 page newsletter to be released quarterly rather than the 8 page report produced six times per year. Total pages delivered will stay the same but overall effective-ness of the Report should increase.

In order to ensure subscriber satisfaction, all current subscribers will have their subscriptions extended by two issues – if you paid for six issues you will get them!

Any subscriber may also opt for a refund of a pro-rated portion of the remaining subscription under the original terms.

**Did you know?** If every American home replaced just **one** incandescent light bulb with an ENERGY STAR compact fluorescent bulb, together we would save enough energy to light more than 2.5 million homes for a year and prevent greenhouse gases equivalent to the emissions of nearly 800,000 cars.

(Source: [www.energystar.gov](http://www.energystar.gov))

Each of us has the power to make a difference by truly living the example we wish to set. In your family, your community, your nation and your world... **be the difference!**

**Kelly Research Report** is published by Kelly Research Technologies, Post Office Box 128, 121 Oasis Road, Lakemont, Georgia, 30552. EDITOR-IN-CHIEF: Ed Kelly. *Kelly Research Report* is published quarterly. Copyright in the United States. Reproduction in whole or in part is forbidden unless written permission has been granted by the publisher. Annual subscription rate is \$25.00 in North America, \$40.00 (U.S. Dollars) else where. Single copies and back issues are \$5.00 each. Correspondence and subscription requests should be sent to *Kelly Research Report* at the above address. Expiration date for a subscription is shown in brackets following the subscriber's name on the address label. Publication of this newsletter in no way constitutes a claim that psychotronic, radionic or scalar technology devices are effective in the treatment of disease or other human ailments. These devices are designed to be used for personal research and/or agricultural purposes only. We are not in the business of treating people and/or teaching to treat people to treat people. Persons with mental or physical illnesses should be referred to qualified medical practitioners licensed by federal, state or local agencies. The publisher assumes no responsibility for the accuracy, efficacy or effects of material presented here or material submitted by readers. This material represents research that is being passed on for enlightenment of others who are following, or wish to follow, similar paths.

# BETAR – The Sound of Relaxation

## WHAT IS BETAR?

**BETAR is the ultimate sound relaxation system.** Users recline on a comfortable table while their favorite music washes through them, takes them for a vibroacoustic audio ride that is as exciting, as tranquil, or as joyous as the music they selected. Specially tuned transducers mounted down the length of the table ripple music directly through the user without excessive volume. Top quality headphones place the rider of a Standard Edition BETAR system in the center of a personal sanctuary of healing. Riders of Pro Edition and Master Edition BETAR systems float in space in a geodesic framework that is positioned at the focal point of a powerful speaker array that guarantees complete immersion within their songs, symphonies and soundscapes.

## BETAR MELTS AWAY TENSION, STRESS AND PAIN.

**Stress contributes to many of the leading health challenges of our time.** Consider these statistics developed by the Cleveland Clinic, one of the nation's top four hospitals according to US News and World Report.<sup>1</sup>

- Forty-three percent of all adults suffer adverse health effects from stress.
- Seventy-five to 90% of all doctors' office visits are for stress-related ailments and complaints.
- Stress is linked to six of the leading causes of death: heart disease, cancer, lung ailments, accidents, cirrhosis of the liver, and suicide.
- The Occupational Safety and Health Administration (OSHA) declared stress a hazard of the workplace. In terms of lost hours due to absenteeism, reduced productivity and workers' compensation benefits, stress costs American industry more than \$300 billion annually.
- The lifetime prevalence of an emotional disorder is more than 50%, often due to chronic stress.<sup>2</sup>

**Music is a widely recognized source of stress relief** for both healthy persons and those suffering from health problems. A 2001 study conducted by the University of Maryland Medical Center found that students who listened to a well-known, gentle classical piece of music during a stressful task had reduced heart rate, blood pressure and feelings of anxiety.<sup>3</sup>

**Vibroacoustic music therapy (VMT) produces music that is both heard and felt** through a combination of audio and tactile stimulation. VMT has been noted as a highly effective method of eliciting the relaxation response, as well as other positive emotional and physiologic changes. In 2000, the Ella Milbank Foshay Cancer Center at Jupiter Medical Center, Florida, implemented a vibroacoustic music therapy program using a Standard Edition BETAR with the goal of reducing patient pain and symptoms resulting from cancer and cancer treatment. Evaluation of a group of 27 participating patients between the ages of 33 and 78 revealed a 61% to 74% decrease of pain and symptoms.<sup>4</sup>

**BETAR users consistently express complete relaxation** by the end of their sessions, with riders commonly finding the experience to be both transformational and cathartic. Many users experience emotional responses far beyond what could be expected from a mere listening experience. The secret lies in the BETAR amplifier and vibroacoustic transducer bed. The BETAR amp seamlessly integrates user's music with a series of eight specially selected frequencies, which are pulsed with the music to the corresponding transducer in the bed. Each transducer is positioned to directly stimulate the areas of the body that Chinese and Hindu philosophers call the chakra, the human body's natural energy centers.<sup>5</sup> Eastern and Western medicine agree that these energy nodes are located in the same positions as the core elements of the endocrine system, the glands that secrete the hormones that control the body's growth, metabolism and reproductive functions.<sup>6</sup> Like a supercharged version of the sacred chants that Eastern Monks use to meditate, the music and frequencies played through the BETAR transducers resonate through users in ways that can melt away deeply held patterns of stress, tension and pain.

## WHO SHOULD USE BETAR?

BETAR is appropriate for any person who can benefit from reduced levels of stress and increased levels of relaxation. Thousands of users have benefited from a unique and restorative experience that is relaxing and pleasant.

## WHERE CAN YOU LEARN MORE ABOUT BETAR?

Since 1986 BETAR has been installed in dozens of homes, clinics and vacation resorts around the world, including chiropractic, massage therapy, music therapy and pain relief centers. Some specific examples include:

Location	Organization	Phone	Web
Omaha, AR	Dr. John Sinclair - Dentist	870-426-3664	<a href="http://tinyurl.com/2gkj3k">http://tinyurl.com/2gkj3k</a>

The original BETAR prototype is used on a daily basis by guests, clients and researchers at Kelly Research Technologies' headquarters in Lakemont, Georgia. Truly the Master Edition, it's evolved continuously over the last 20 years as we have explored every possible audio playback, amplification and speaker technology while simultaneously developing and refining the BETAR amplifier and transducer array that lies at the heart of every BETAR system.

Bring BETAR into your life! The ability to select between Standard Edition, Pro Edition and Master Edition BETAR systems ensures that the ultimate sound relaxation system is within reach of most budgets. Contact us to learn more!

### By popular demand:

KRT is proud to offer 250 milliliter Pyrex Griffin Beakers made by Corning Glass for use in the radionics laboratory:

- Excellent for use with soil or other samples that will be discarded rather than stored.
- Fits perfectly in all Kelly small sample and input wells – reduces risk of contamination.
- Dishwasher safe means easy to clean!

**\$6.00 each –OR– \$60.00 for a pack of 12.**

# Radionics – Action at a Distance

Have you ever wondered:

- What is the *physical* role of the **human brain** in radionics?
- What is **phase conjugation** and why is it important?
- How do the scalar signals produced by a radionic analyzer reach instantaneously **across space and time** to assess the energy state of a crop or animal?
- What is the nature of the **bond between the witness** and the crop or animal being studied?

All of these questions and many more are answered in Tom Bearden's DVD: **Radionics – Action at a Distance!**

Tom Bearden is one of the world's leading champions, theorists and primary researchers in the cutting edge physics that explains the radionics, "free energy" and practically every other scalar or "subtle energy" technology. Filmed live during a lecture delivered to the United States Psychotronics Association at their 1990 meeting in Atlanta, Georgia, Tom explains the physics behind radionics using a presentation style that is fun and folksy, appropriate to all audiences. The program is supplemented with color slides and diagrams that serve to illuminate the concepts being presented.

Make no mistake, this is a serious lecture by a serious scientist that explores the underpinnings of not only radionics, but our entire known universe! You will pause the film again and again to absorb this knowledge or to think about how the concepts apply to your own research. Running at a little over 90 minutes, this DVD-R is now available in both NTSC (North American) and PAL (European) formats.

**Radionics – Action at a Distance** is **available now** for just **\$39.00!**

## The Resveratrol Revolution Continues!

The University of Georgia's Nutraceutical Research Laboratory has received a Georgia Center of Innovation award from Governor Sonny Perdue for its work on the nutraceutical value of the muscadine grape. The accompanying grant, funded by the OneGeorgia Authority, will support development of the commercial production process for a concentrated liquid extract from muscadine grape pomace.

The laboratory has been conducting biomedical research on muscadine photochemical fractions for the past six years. The muscadine is being developed for its anti-oxidant and anti-inflammatory properties and its action against cancer, aging, osteoarthritis and diabetes.

**Source:** Robertson, Sheila (2007); *Nutraceutical Research Laboratory receives Georgia Center of Innovation award.* From the UGA Office of Public Affairs web site at: [www.uga.edu/news/artman/publish/070214\\_labAward.shtml](http://www.uga.edu/news/artman/publish/070214_labAward.shtml).

Kelly Research Technologies is pleased to offer NSI's **Resveratrol + Grape Seed & Red Wine Extracts**, a dietary supplement that is ideal for use as a reagent in all radionic research.

Delivers:        75 mg – Japanese Knotweed Extract  
                     25 mg – Red Wine Extract (skin and seed)  
                     50 mg – Grape Seed Extract  
                     150 mg – Total Resveratrol

**Available now!**  
**120 capsules for just \$29.99!**

## **MOST RECENT FOOD RECALL GRIPS NATION:** The national recall of **60 million** cat and dog food products manufactured by pet foods industry giant Menu Foods has exposed significant weaknesses in our increasingly tenuous food chain.

Menu Foods company produces "cuts and gravy"-style pet foods for dozens of pet food brands, everything from the store brands sold in Wal-Mart, Safeway and Kroger to premium brands like Iams and Eukanuba.<sup>1</sup> All totaled **fifty** brands were recalled by Menu Foods on March 16, 2007, as a result of the high incidence of vomiting, kidney failure and/or death in some pets. In Menu Foods' own laboratory trial, cats and dogs died at the rate of **one in six** when fed pet foods alleged to be tainted.<sup>2, 3</sup>

Menu Foods initially declared that the wheat gluten binder used in their foods, imported from the Chinese company Xuzhou Anying Biologic Technology of Peixian, had arrived adulterated or contaminated by aminopterin, a rat poison. However the U.S. Food and Drug Administration (FDA) contested the accuracy of that claim, noting instead that the wheat gluten contained melamine, a synthetic polymer that is used to make everything from fire resistant cloth to formica counter-tops.<sup>4,5</sup>

The impact of this massive poisoning is still unknown; as of March 30, 2007, the FDA had received more than 8,000 complaints while Menu Foods more than 300,000.<sup>6</sup> As of this writing, the contaminated wheat gluten has also been found in several dry pet foods, including those made by Hill's and Science Diet. The FDA has begun an "across the board" investigation into human foods that containing wheat gluten.<sup>7</sup>

While the contamination was most likely accidental, this incident demonstrates with shocking clarity not only the distance traveled by some elements of our food supply but also how so few food manufacturers are now feeding so many.

**How little control we have over the quality of our food supply** has been repeatedly demonstrated in recent months; on February 14, 2007, the U.S. Food and Drug Administration had to warn consumers to discard certain jars of Peter Pan and Great Value peanut butter manufactured by ConAgra due to risk of contamination with *Salmonella*, a bacterium that causes gastrointestinal and other diseases.<sup>8</sup> Food industry giant ConAgra is facing litigation charging that hundreds of customers in more than 40 states became ill or had to be hospitalized as a result of the poisoned foods.<sup>9</sup>

The peanut butter recall fell quick on the heels last fall's *E coli* contamination of spinach, in which crops grown on **one** farm in California were sold under dozens of brands

distributed in 19 states, as well as parts of Canada and Mexico. This outbreak led the illness of 205 people and the deaths of three.<sup>10</sup>

Besides the risk of our foods becoming contaminated in faraway places, we have become **overly dependent on the industrialized farms** located in a few sun-drenched regions of our nation. Fully 25% of the nation's table food is grown in six counties in California, including the farm where the contaminated spinach was grown.<sup>11</sup> This area is currently reeling from a sustained drought generated by rising temperatures that have reduced both rainfall and the water content of the snow pack. According to CattleNetwork.com, Los Angeles measured just 0.05 inches of rain in March, and is still on track to record the driest summer in more than 120 years. California statewide snow water content was at 40 percent of normal for 2007.<sup>12</sup>

Make no mistake - the results of **a sustained drought would be devastating**. A study just completed by the Lamont-Doherty Earth Observatory at Columbia University concluded that human-caused climate change is likely to lead to long periods of extreme drought throughout the American Southwest starting early this century. The researchers compared the coming drought to the Dustbowl of the 1930s that sent millions of environmental refugees fleeing to California from across the Great Plains.<sup>13</sup>

### **What can you do? Be prepared!**

- Do everything possible to encourage and support local, sustainable agriculture by shopping at farmer's markets, produce stands and local farm cooperatives.
- Plant a garden, a fruit/nut tree and/or some berry bushes on your own property.
- Fill your pantry with enough canned and shelf-stable foods to feed your family in the event of a Hurricane Katrina-sized disruption in national food distribution.

Ear, Outer Passages	20.50	Knee - Muscular Tissue	41.00
Bone, Marrow	21.00	Connective Tissue, Covering Structure of - Muscular Tissue, Sheath - Skin, Epidermis - Tissue, Subcutaneous	42.00
Hip, Ilium (uppermost of 3 sections of hipbone)	21.50	Intestine, Large, Anus - Pharynx - Pharynx, Throat, Epiglottis - Muscular Tissue - Throat, Trachea	42.50
Brain, Hind, Pons, Varolii - Female Genital System, Ovaries - Male Genital System, Testes	22.00	Sinuses	42.75
Ankle	22.20	Esophagus, Vocal Cords	43.00
Eyes, Sclera, Retina, Optic Chiasma - Tissue, Subcutaneous	22.50	Brain, Hind, Cerebellum	43.25
Hip, Ischium (lowermost of 3 sections of hipbone)	22.75	Ear, Inner, Eustachian Tubes - Mouth - Tongue - Taste Buds - Pharynx	43.50
Urinary System, Kidneys - Female Genital System, Ovaries, Fallopian Tubes	23.00	Glands, Lymph, Nodes	44.00
Sinuses, Maxillary Air	23.25	Heart, Third Ventricle of - Liver, Left Lobe of	45.00
Biliary Ducts (delivers bile) - Nose	23.50	Muscular Tissue, Striped/Voluntary, Tendons/Ligaments	45.50
Mastoid, Breast (shape) - Mastoid (process of temporal bone)	24.00		

These rates are experimental and intended for reference or agricultural use only.

SDR - Right

## Single Dial Rates - Right (Location): Numerical

Glands, Adrenal - Intestine, Small, Ileum	46.00	Male Genital System, Penis	76.50
Muscular Tissue, Sheath, Sphincter - Respiratory, Lungs	47.00	Intestine, Large, Hepatic Flexure -	
Tonsils, Tongue, Swallowing - Throat	47.50	Transverse Colon, Cecum	78.00
Glands, Tysons - Ear, Inner, Eustachian Tubes -		Brain, Fore	78.50
Pharynx, Throat - Male Genital System,		Eyes, Eyelid lining	79.00
Tysons Glands - Nose, Upper	48.00	Shoulder, Supra Spinatus	79.30
Blood	49.00	Intestine, Large, Colon, Transverse, Splenic Feature	80.00
Shoulder	49.40	Female Genital System, Uterus, Vagina	81.00
Knee, Periosteum (fibrous membrane)	49.50	Urinary System, Kidneys - Intestine, Small	82.00
Hair Roots - Male Genital System, Penis, Vas		Brain, Frontal (association area) -	
Deferens duct of - Sinuses, Paranasal, Frontal	50.00	Sinuses, Paranasal, Frontal	82.75
Hand - Spinal, Cord, Nerves, Meninges	50.50	Respiratory, Bronchi	83.00
Glands, Lymphatic nodules, aggregated - Intestine,		Stomach, Part of the	84.00
Small, Peyer's Patch Gland - Membrane, Mucous	51.00	Hair Follicle - Membrane of Corti	85.00
Brain, Fore, Hypothalamus, Nerves -		Female Genital System, Vulva, Labia Majora -	
Female Genital System, Vulva	51.50	Uterus, Cervix of - Urinary System, Urethra -	
Cells, Cellular Level - Throat, Trachea	52.00	Male Genital System, Spermatic Cord	86.00
Ear Balance - Intestine, Large, Stomach, Omentum	52.50	Glands, Pituitary, Posterior	87.00
Respiratory, Lungs, Thoracic Area, Thorax, Chest	53.00	Eyes, Turbidity of Fluid	87.50
Bone, Pubis (front part of pelvis)	53.25	Urinary System - Stomach, Lining	88.00
Female Genital System, Uterus, External Serous Coat	53.50	Pancreas	89.00
Intestine, Large, Colon, Duodenum	54.00	Intestine, Large, Colon, Descending	90.00
Wrist, Carpal	54.30	Brain, Fore, Hypothalamus	90.50
Brain, Fore, Thalamus	54.50	Skin, Nerve Endings of, Derma	91.00
Spinal, Fluid	55.00	Glands, Parathyroid (isthmus of thyroid)	92.00
Foot, Left	55.60	Glands, Sweat - Respiratory, Lungs, Upper	93.00
Glands, Mammary, Breast	56.00	Intestine, Large, Colon, Duodenum	94.00
Glandular system - Muscular Tissue, Unstriated or		Spleen	95.00
Involuntary - Stomach, Peritoneum	57.00	Buttock - Coccyx - Hip Bones - Intestine,	
Female Genital System, Uterus -		Large - Sacrum - Rectum, Anus	96.00
Pharynx, Throat, Epiglottis	58.00	Circulatory System, Veins - Head - Male	
Female Genital System, Vagina - Glands, Salivary	59.00	Genital System, Epididymis	97.00
Female Genital System, Ovaries - Vagina	59.50	Glands, Thyroid	98.00
Stomach, Celiac - Intestine, Large,		Head, Top of - Skin, Non Vascular, Outer Layer of	99.00
Transverse Colon, Cecum	60.00	Membranes	99.50
Brain, Temporal Lobe	60.50	Whole Body	100.00
Nose, Upper	60.75		
Tissue, Fatty	61.00		
Female Genital System, Ovaries -			
Intestine, Large, Descending colon	62.00		
Bone, Collarbone, Clavicle	62.40		
Urinary System, Kidneys, Left tubules	63.00		
Brain, Visual Center	63.50		
Eyes, Lacrimal Apparatus, Lacrimal Ducts of	64.00		
Bone, Ethmoid, (cribriform area)	64.50		
Glands, Pituitary, Anterior	65.00		
Ear, Auditory Canal	65.50		
Intestine, Large, Vermiform, Appendix - Solar Plexus	66.00		
Jaw, Upper, Maxilla	66.50		
Head, Back Part of, Occipital	66.80		
Urinary System, Ureters	67.00		
Ear, Middle & Inner - Jaw, Mandible of	68.00		
Shoulder, Deltoid Muscle of	68.10		
Ear, Inner, Eustachian Tubes - Circulatory System, Veins	69.00		
Heart - Spinal, Sciatic Notch	70.00		
Brain, Arteries (scalp area)	70.50		
Circulatory System, Veins, Arteries	71.00		
Respiratory, Larynx, Glottis in Throat	71.50		
Urinary System, Kidneys, Right tubules	72.00		
Respiratory, Lungs, Upper	73.00		
Respiratory, Lungs, Lower	74.00		
Intestine, Large, Colon, Diverticulum	75.00		

### CORRECTION

In the September - December 2006 issue of *Kelly Research Report* a mistake was printed in the article entitled **Potentiizing and Homeopathy** on page 13, Part 3 - Number "I":

If the substrate is to be potentized directly from a physical sample or specimen, the sample or specimen should be placed in the Kelly Analyzer's main input well while the rate dials should be set to **00.00-0.00**.

In fact this statement should have read:

If the substrate is to be potentized directly from a physical sample or specimen, the sample or specimen should be placed in the Kelly Analyzer's main input well while the rate dials should be set to **00.00-100.00**.

Of course, "0.00-0.00" is the null setting, while "0.00-100.00" is the rate for the whole energy spectrum of the item or organism sampled.

It is our policy to correct any mistakes published in the *Kelly Research Report*. We regret any inconvenience generated as a result of this error.

These rates are experimental and intended for reference or agricultural use only.

# Introducing: The Handheld Signal Generator

Directly introduce standard electromagnetic frequencies to the pulsed scalar transmissions generated by your **Kelly Personal Agricultural Radionic Analyzer** and **Kelly Large Agricultural Radionic Analyzer** using our new Handheld Signal Generator! This easy-to-use device generates frequencies between 0.1 hertz and 9,999,999.9 hertz, with 0.02% accuracy.

## Benefits include:

- Ability to integrate "Rife" and any other frequencies into your radionic research, including Earth Resonance frequencies, natural harmonic frequencies and others attributed to have unique effects.
- Pushbutton controls allow simple, flawless frequency selection between 0.1 hertz and 9,999,999 hertz – delivers ten million unique frequencies between the "Ultra-Low" and "High" bands.
- Variable amplitude thumbwheel allows precision control of wave magnitude.
- Connect/disconnect in seconds through the shielded BNC-type port that is standard on all new or upgraded Mk. III Kelly Analyzers, featuring Silver Sephorah geomantic signal multiplier technology.
- Small unit size (2.1" x 3.6" x 6.0") minimizes required lab space.
- Exceptional quality: Since 1951, B+K Precision has built a reputation for excellence in the design and manufacture of reliable test and measurement products for the electronics industry.

Includes everything needed to begin use with your **Kelly Agricultural Radionic Analyzer**:

- Handheld Signal Generator
- 110 volt power supply
- Male-to-Male Coaxial Cable.

**Order yours today for just \$355.00!**

## But how easy is it to use?

The Handheld Signal Generator is extremely simple to connect, use and disconnect from your Kelly Analyzer! To follow are the actual instructions we provide with every unit, which walk the user through every step of the process. Read ahead and see for yourself how easy this device is to use!

## INSTRUCTIONS

The frequencies generated by the Handheld Signal Generator may be used in conjunction with known radionic rates OR broadcast unmodified to the witness using the "0.00-100.00" setting on all banks.

### CONNECT AND PLUG IN:

1. Connect power supply cord to jack in upper right side of Handheld Signal Generator.
2. Plug Handheld Signal Generator power supply into 110 volt household outlet.
3. Connect included coaxial cable to signal generator's "Square" BNC output port (see photo).

4. Connect other end of included cable to BNC port on the Kelly Radionic Analyzer:
  - On the **Kelly Personal Agricultural Radionic Analyzer** the BNC input port is located on the unit front in the upper right corner (see photo).
  - On the **Kelly Large Agricultural Radionic Analyzer** the BNC input port is located on the left hand side of the cabinet (see photo).

### SELECT AND GENERATE A FREQUENCY:

5. There are small buttons located above and below each numeral that are used to increase and decrease the displayed digit – use these buttons to change the displayed digits until the desired frequency is indicated.

**NOTE:** The digit to the far right is **tenths** of one Hertz, thus the frequency displayed in the photo at right is "504.8 Hz" **NOT** "5048 Hz". Remember to include this decimal!

6. Set the signal amplitude by rotating the thumbwheel found on the right hand side of the Handheld Signal Generator just below where the power cord is plugged. Dowse with the Analyzer's rub plate while rotating the thumbwheel to identify the optimal signal amplitude.
7. Check and note energy level for all active banks on the Analyzer using the Intensity dial while dowsing with the rub plate.
8. Turn on the Handheld Signal Generator using the slide switch on the left hand side of the unit.
9. **Very important!** Immediately recheck intensity to verify that the signal is actually producing the desired effect, whether to strengthen or weaken the scalar energy level of the radionic rate(s) indicated on any active banks. *Remember, frequencies that have generated positive results in other research may or may not be beneficial to your own!*
10. If the frequency is verified to generate the desired effect, turn on the Analyzer's amp, then dowse for the time to broadcast using the Intensity dial, as with any radionic transmission. Do not exceed recommended broadcast time!

### STOP FREQUENCY GENERATION AND DISCONNECT:

11. Turn off Handheld Signal Generator using the slide switch on the left hand side of the unit.
12. Disconnect signal cable and power supply in reverse order of connection.
13. To ensure years of trouble-free use, store Handheld Signal Generator, cable and power supply in a dry, dust-free environment.

---

**DISCLAIMER:** Kelly Agricultural Radionic Analyzers are for experimental research only. No claims of any kind are made or implied to suggest their effectiveness in the diagnosis, treatment, cure or prevention of any disease or condition in any plant, animal or anything else – with or without the help of the Handheld Signal Generator. **If you are in need of medical or other professional care please contact and heed the advice of a licensed professional.**

# ELECTROMAGNETIC FREQUENCY DIGEST

## Waveform Glossary

**Amplitude:** The extreme range of a fluctuating quantity, generally measured from the average to the highest or lowest extreme. The "height" of the wave.

**Carrier Wave:** The steady, transmitted wave whose amplitude, frequency, or phase is modulated in order to carry audio/digital information, as with radio signals.

**Frequency:** The number of periodic oscillations, vibrations, or waves per unit of time: usually expressed in cycles per second as "Hertz".

**Phase:** The fractional part of a cycle through which a periodic carrier wave has advanced at an instant, as measured from an arbitrary starting point.

## Unit Conversions

1,000 Hertz (Hz) = 1.0 Kilohertz (KHz)

1,000,000 Hertz (Hz) = 1,000 Kilohertz (KHz) = 1.0 Megahertz (MHz)

1 billion Hertz (Hz) = 1,000,000 Kilohertz (KHz) = 1,000 Megahertz (MHz) = 1.0 Gigahertz (GHz)

## Frequency Ranges

Name	Description	Frequency Range	Applications
ULF	Ultra-Low Frequencies	3 - 30 Hz	
ELF	Extremely Low Frequencies	30 - 300 Hz	Navy Strategic Communications
	Human Audible Frequencies	20 - 20,000 Hz	
VLF	Very-Low Frequencies	3kHz - 30 kHz	Navy Strategic Communications
LF	Low Frequencies	30 kHz - 300 kHz	Navy Communications, Navigation (NDBs)
MF	Medium Frequencies	300 kHz - 3 MHz	Navigation (NDBs), AM Broadcast
HF	High Frequencies	3 MHz - 30MHz	Short Wave, Ham Radio, International Radio
VHF	Very-High Frequencies	30 - MHz - 300MHz FM	Broadcast, Television, Police/Fire
UHF	Ultra-High Frequencies	300 MHz - 3 GHz	Satellite, GPS, Cell Phone, Television
SHF	Super-High Frequencies	3 GHz - 30 GHz	Satellite Communications and Broadcast

## Schumann Earth Resonance Frequencies

7.8 Hz, 14.0 Hz, 20.0 Hz, 26.0 Hz, 33.0 Hz, 39.0 Hz and 45.0 Hz

## Chakra Frequencies

<b>Base:</b>	Adrenal Glands, Spinal Column, Kidneys	3.8 - 4.3 Hz
<b>Sacral:</b>	Gonads, Reproductive	5.6 - 6.2 Hz
<b>Solar Plexus:</b>	Pancreas, Liver, Stomach, Gall Bladder, Nervous System, Islets of Langerhans	9.8 - 10.2 Hz
<b>Heart:</b>	Thymus, Heart, Circulatory System, Blood, Vagus Nerve	11.8 - 12.2 Hz
<b>Throat:</b>	Thyroid, Bronchial & Vocal Apparatus, Parathyroid, Lungs	15.8 -16.2 Hz
<b>Brow:</b>	Pituitary, Nervous System, Ears, Nose, Left Eye, Lower Brain	90.0 - 98.0 Hz
<b>Crown:</b>	Pineal Gland, Upper Brain, Right Eye	960.0 Hz

## Brainwave Frequencies

<b>Delta:</b>	Deep Sleep, Higher States of Consciousness	0.0 - 4.0 Hz
<b>Theta:</b>	Day Dreaming, Reverie	4.0 - 8.0 Hz
<b>Alpha:</b>	Passive Blank State	8.0 - 13.0 Hz
<b>Beta:</b>	Active and/or thinking State	13.0 - 30.0 Hz
<b>Gamma:</b>	Tension and/or over activity	30.0 - 60.0 Hz

## Experimental Extremely Low Frequencies (ELF)

Contraction of Heart Muscle - Radio Waves	1.0 - 3.0 Hz
Spontaneous Muscle Palpitation - Radio Waves	1.0 - 8.0 Hz
Muscle Locomotion	3.0 - 16.0 Hz
Epileptic Seizures, Psychopathic	4.0 - 7.0 Hz
Disruption of E.E.G.	6.3 Hz
Vibrates Physical, Reduces Ability To Think, May Cause Headaches	7.0 Hz
ESP, Other Paranormal States	7.8 - 8.2 Hz
Earth Resonant Frequency	7.8 Hz
Anxiety and Stress Relief	8.0 - 8.6 Hz
Induces Spontaneous EEG patterns	9.0 - 9.4 Hz
Meditative States	9.0 - 9.8 Hz
Relaxed Alertness	9.8 - 10.6 Hz
Alert, Focusing	11.0 -14.0 Hz
Increased Perception	14.0 - 18.0 Hz
Tense, Alert	16.0 - 60.0 Hz
Can Induce Nausea, Giddiness, Disorientation, Headaches	19.2 Hz
DNA/RNA Frequency	43.5 Hz
Found in Storms, Thunderstorms	52.0 Hz
Induce Sleep	80.0 Hz
Tetanus, Parasites	120.0 Hz

## Other Experimental Frequencies

Tetanus	244.0 Hz
Bacterium coli	642.0 Hz
Staphylococcus	727.0 Hz
Pneumonia	776.0 Hz
Fungus	787.0 Hz
E. coli, TB	800.0 Hz
Streptococcus	880.0 Hz
Asthma	1283.0 Hz
Arthritis	1550.0 Hz
Sarcoma	2008.0 Hz
Carcinoma	2127.0 Hz

## Other References

### ***The Handbook of Rife Frequency Healing***

by Nenah Sylver, Ph.D.

This three pound, 448 page compendium of Rife frequency medicine technology is also an extensive primer in holistic health. In scientific but understandable terms, you will discover what Rife technology is, how laypersons and health practitioners can easily use it; the vast number of health conditions that can be helped by it, precautions to take, complementary therapies, history of medicine, and more. A **must have** book for anyone interested in Rife Technology and frequencies! (8.5" x 11" – paperback – 448 pgs.)

### ***The Electroherbalism Frequency Lists***

by Brian McInturff

The Electroherbalism Frequency Lists contains frequencies that people use for alternative bioelectronic instruments including function generator pad devices, EMEMs, Rife and Rife-Bare machines, among others. This compilation includes newly updated versions (v2006-11-03) of the Consolidated Annotated Frequency List (CAFL), the Non-Consolidated Frequency List (NCFL), an "Introduction to Alternative Bioelectronic Therapy Devices," and the article "Electrical and Frequency Effects on Pathogens." The Electroherbalism frequency lists are some of the most-used references for frequency researchers the world over. (8.5" x 11" – paperback – 172 pgs.)
