

# THE SEEKER

## AN EXPERIMENTAL AGRICULTURAL ANALYZER

The **Seeker** is a deluxe personal instrument for exploring new dimensions of knowledge. It was developed as a direct response to requests for a powerful radionics instrument with 360 degree rate dials for exploration, development and use of "negative" rate groups within the Hieronymus-based rate system. This two bank unit has all of the features of the **Kelly Personal Agricultural Analyzer**, some of the best from the **Kelly Large Agricultural Workstation**, and the enhanced information density generated by an integrated **Phase Array Antenna** – all built into a handsome oak cabinet.

- **Standard:** Two banks of parallel plate capacitors that generate analog scalar wavelengths **as accurate as the sensitivity of the operator**.
- **Standard:** Large, easy-to-read rate dial markings improve accuracy and user effectiveness. **360 degree** enumeration allows exploration and use of the entire scalar energy longitudinal waveform.
- **Standard:** Cutting-edge **silver Sephorah** geomantic signal multiplier increases broadcast effectiveness in the face of fluctuating/fading global magnetic fields.
- **Standard:** An integrated four-plate, 32 **Phase Array Antenna** improves signal density for improved information delivery. Add an external moebius coil rub plate antenna or a *second* external Phase Array Antenna using the **auxiliary input** connectors.
- **Standard:** 10-turn intensity dial delivers **exceptional precision** when dowsing for intensities and broadcast times.
- **Standard:** Built-in **12 to 300 Hour Adjustable Timer** eliminates risk of over-broadcasting.
- **Standard:** Flexible external input panel allow easy addition of a grounding cable, a large sample well, an electronic potentiometer and/or an external frequency/signal generator. **Fully compatible** with all Kelly accessories.
- **Standard:** Beautiful **hand rubbed oak** cabinet, upgradeable to a custom laminate color finish.

**THE SEEKER: A KELLY RADIONIC ANALYZER..... \$2,750.00**  
**THE SEEKER: (with Pyrex input well)..... \$2,825.00**

**Upgrade:** Every **Seeker** agricultural radionic instrument comes equipped with a factory installed 32 Phase (4 plate) Antenna. Save big by upgrading to a 40 or 48 phase array at the time of purchase:

Integrated Phase Array	Parallel Plates	Phase Array Price	Use with External Phase Array Antennas	
32 Phase	4	<b>no charge</b>	32 Phase (4 plate)	64 Phase (8 plate)
40 Phase	5	<b>\$75</b>	40 Phase (5 plate)	80 Phase (10 plate)
48 Phase	6	<b>\$150</b>	48 Phase (6 plate)	96 Phase (12 plate)

### The Kelly Research Technologies Guarantee

*All Kelly Research Technology radionic analyzers, subsystems and devices are covered by our 100% satisfaction guarantee. Send your purchase back undamaged within 30 days and we will refund your money, no questions asked.*
