View from the Dome

Happy New Year Everyone!

We stand together at the birth of a new calendar year, a new solar cycle, and a new epoch of opportunity for each of us to abandon obsolete patterns of information, communication, and stagnation. This has been clearly evidenced by the success we have witnessed with friends and collaborators around the world, where new tools and resources have brought about new dimensions of knowledge and success.

At KRT, we have seen the interest in radionics continue to grow as shown by requests for information, distribution of instruments, enrollment in training programs, and the enthusiasm of the participants in the 2013 KRT Great Radionics Expo. We regularly have our minds blown by folks who are applying radionics in ways that defy expectations and expand the limits of possibility. ***You, too, can use your radionic instrument every day:***

- **Test the energetic impact of known poisons** like GMO foods, artificial sweeteners, artificial flavors, and artificial coloring on General Vitality before eating the next meal.
- **Test the energetic impact of the things you wear every day** (jewelry, watches, glasses, phones, etc) on General Vitality. Clean up, detoxify, and take action as necessary!
- Check your home, office, barn, and vehicle for **energetic pests and parasites**. Eliminate and eradicate as necessary!
- Cold scan a rate to **Remove All Obstacles** from your life.
- If you have time for nothing else, every day **cold scan for that rate that is most needed at that time and in that place**. Be sure to ask permission *and* check for appropriateness by asking, "Is this a good broadcast to make, thine will be done, no harm to anyone?"

I urge each of you to take part in this revolution of ideas by rolling up your sleeves and doing the work that already calls to you. Are you making the world a better place for yourself, your family, and your community? What gifts do you – a beautiful individual forged in love and light – have to offer? You know the answer to that better than anyone! Now **take action and be amazed by the results!**

With kindest wishes for a happy, healthy, and prosperous 2014 from all of us at Kelly Research Technologies,

KRT Featured Books

Food Plague by Dr. Arden Andersen

Dr. Arden Andersen's newest volume is a powerful exposé on the poor state of the food we eat. He summarizes his research as follows:

"Modern farming practice has converted food production into a cesspool of poison and genetically engineered 'franken-foods'. GMO's are scientifically proven to cause human suffering including cancer, bowel, liver and kidney disease; infertility; environmental pollution; and resistant strains of infective microorganisms, weeds and insect pests."

However, this book is not just filled with alarmist rhetoric, but also provides the reader with the information necessary to "vote with their dollars" at the grocery store on quality foods, sustainable farming, and the future that all of us want for our children and grandchildren.

Food Plague (softcover, 294 pages)..... \$25.00

Radionics, Reality and Man by George L. Kuepper

KRT is proud to offer George L. Kuepper's comprehensive radionics manuals for the first time. The summation of decades of teaching and research, together these two volumes provide an in-depth look into the universe of radionics, providing step-by-step instructions suitable for the brand new beginner, while also exploring advanced theories, ideas, and applications to the most advanced users.

The first volume, *Radionics, Reality and Man*, covers analysis, instrumented dowsing, broadcasting, rate scanning, and potentization for anyone using Kelly, Hieronymus, Rogers, Mattioda, or similar instruments with 2-dial banks. Special training and instructions are also included for SE-5 instruments. In the section *Notes to the Reader*, Kuepper summarizes the book thusly:

"This book was written to synthesize the radionic instruction received at the feet of some excellent teachers, my own personal experience, and the writing of others. It reflects my best understanding of the subject matter, and all the strengths and weaknesses that go with that understanding."

Kelly Research Report is published by Kelly Research Technologies, Post Office Box 128, 121 Oasis Road, Lakemont, Georgia, 30552. EDITOR-IN-CHIEF: Ed Kelly. *Kelly Research Report* is published quarterly. Copyright in the United States. Reproduction in whole or in part is forbidden unless written permission has been granted by the publisher. Annual subscription rate is \$25.00 in North America, \$40.00 (U.S. Dollars) else where. Single copies and back issues are \$5.00 each. Correspondence and subscription requests should be sent to *Kelly Research Report* at the above address. Expiration date for a subscription is shown in brackets following the subscriber's name on the address label. Publication of this newsletter in no way constitutes a claim that psychotronic, radionic or scalar technology devices are effective in the treatment of disease or other human ailments. These devices are designed to be used for personal research and/or agricultural purposes only. We are not in the business of treating people and/or teaching to people to treat people. Persons with mental or physical illnesses should be referred to qualified medical practitioners licensed by federal, state or local agencies, as applicable. This material represents research that is being passed on for enlightenment of others who are following, or wish to follow, similar paths.

www.kellyresearchtech.com

Chapter headings for **Radionics, Reality and Man** include:

- Supersensonics
- A Brief History of Radionics
- The Fundamentals of Radionics
- Paradigms and Radionics
- A Radionic University
- The Subtle Constitution of Nature
- Learning Radionics: Preparatory Procedures and Considerations
- Radionic Analysis
- Dowsing Operations
- Rate Scanning
- Radionic Broadcasting
- Potentizing
- Specific Applications
- Results and Expectations
- Radionics in Farming and Agriculture
- Accessing Radionics

Radionics, Reality and Man (coil bound, 262 pages)..... **\$40.00**

Plants, Soils, Earth Energy and Radionics by George L. Kuepper

The second volume in his series, **Plants, Soils, Earth Energy and Radionics**, provides radionic and dowsing applications for agronomy, geomancy, horticulture, homesteading, and the optimization of food and water. This book is a companion volume to the first and does not restate the basic principles and techniques covered therein. Instead, it is assumed that the reader has a working knowledge of their radionic instrument and is prepared to utilize these advanced topics. Chapters in this book include:

- Earth Energies: Concepts and Descriptions
- Radionic House Cleaning
- Analyzing Plants & Soils
- Bringing the Soil/Plant System Into Balance
- Foliar Fertilization
- Diseases, Insects, and Weeds
- Radionics Towers
- Working with Earth Energy: Select Radionic & Dowsing Techniques
- Delving Deeper: Esoteric Work with Plants & Soils
- Economics, Sustainability, & Radionics
- Accessing Radionics for Agriculture
- Appendices: Preparatory Protocols and Blank Analysis Sheets

Anyone who has studied radionics for long knows that the few books available in the marketplace tend to focus on history and/or general theories. The number of volumes that provide hands-on, practical information for the daily user are few and far between. **For this reason, these two volumes should be considered essentials for every radionic laboratory.**

Plants, Soils, Earth Energy and Radionics (coil bound, 212 pages).....**\$40.00**

KRT Featured Book Excerpt

In which the author tells the story of his introduction to radionics.

Radionics, Reality and Man by George L. Kuepper

A Personal Journey

I first heard of the word radionics in the early 1980's. My wife Dee, unlike me, was interested in mysticism and parapsychology, and had attended a workshop on *kundalini* meditation at a small institute in the Arkansas Ozarks. On returning, she related that one of the instructors had actually monitored the effects of kundalini exercises using something called a *radionic instrument!* I took little note of this at the time. But the fact, nevertheless, lodged itself somewhere in the recesses of my mind because several years later I would remember it clearly.

Toward the middle of the 1980's, we found ourselves in southeastern Oklahoma. I'd undertaken management of a small fruit and vegetable farm for a regional foundation. The farm was principally a demonstration and research project focused on direct marketing and alternative agricultural enterprises.

A key enterprise centered on three newly-planted acres of highbush blueberries. A mere 50 miles to the northeast, on the Ozark plateau, blueberries had already proven to be the most profitable (legal!) crop to come along in decades. There was every reason to believe that it would become the cornerstone of our farm. How wrong we were! The bushes proved to be a textbook example of almost every disease and insect pest problem known to blueberries in the Mid-South! Roughly 20% of the plants died. We tried to replace these, but their replacements were faring just as poorly.

Location **was** part of the problem. But more important, it turned out, was how the plants were being grown. The blueberries had already been established before I got on the scene, and pesticides and commercial fertilizers were routinely used. When the original manager saw that the planting was not thriving as it should, even more pesticides and fertilizers were applied, worsening the situation.

When I took the reins, we immediately reduced the use of synthetic pesticides and began to introduce Organic farming techniques. The planting continued to stumble along, however, with disappointing yields and little new growth. The plants continued to die – often quite suddenly.

I've always believed strongly in the power of prayer, and especially in prayer for guidance. I did a lot of praying in those days.

As I recall, it happened quite suddenly. References to “radionics” came from a number of different people, in very different locations, and under very different circumstances. In one instance, while attending a Natural Farming Conference in New York State, a young couple we’d just met invited my co-worker and myself to their home where they gave us a very convincing demonstration. We spent all evening with these very dedicated and very Christian-spiritual people. I was convinced, in spite of some trepidation, that **this** was how my prayers were being answered.

Did I say trepidation? To be honest, I was upset to the point of physical illness. I understood very little of the physical mechanics of, or explanations for radionics; but I had little doubt I was about to involve myself in something quite *metaphysical*, and I dreaded it! I read an excellent book: *Radionics: Science or Magic* (Tansley, 1982). Unfortunately, it only confirmed my fears, leaving me awake at night with anxiety attacks.

My fears were not simple paranoia. During the 1970’s, with an agronomy degree in hand, I’d joined a research team which was investigating Organic Farming. Since Organic farms did not use polluting pesticides and fertilizers, I thought I was making a most responsible, not to mention “interesting”, choice in my career. The Institute I worked for was reputable; the scientists well back-grounded; and the research was beyond reproach. Nevertheless, this is not how my choice was received in the professional community. Relations with other agronomists became decidedly chilly, our presentations and writings were attacked simply for “being”, and more than one professional actually characterized us as “dangerous”. The real personal trial began when I set out to find another job once our research project ended. When I was able to get an interview, it often became surreal as interrogators learned the details!

I had little doubt about the cold shoulder I would receive choosing to work with radionics! It would lead not only to banishment from the conventional agriculture community, but considerable isolation within the Sustainable/Organic movement also!

Despite these fears, one should not pray for divine guidance unless there is intent to act on it; and what is life anyway, if not an opportunity to learn and grow?! So a few months later I was in south Texas, attending the first of many radionics workshops and classes.

I spent the four agonizing days of that first class trying to learn skills and a way of thinking I was still quite ill-prepared for. It wasn’t until the last day that I thought I was really getting a response from an instrument. And that was questionable. I returned to Oklahoma with my notes, cassette tapes and a brand new radionic instrument.

Despite my lack of confidence I did not waste much time. Field samples from the blueberries were taken, and I clumsily worked my way through analysis procedures. From that point on, we began farming in a new way with a different perspective.

Our results were immediate and astonishing. Most noticeably, the disease and insect problems vanished. We lost no more bushes and most began to grow vigorously. Even weed problems were greatly reduced. Yields climbed and our farm project was back on track. If yours is a background in agriculture, you will be most amazed to learn that this was all accomplished without the use of pesticides, and with about 1/8 to 1/10 the amount of fertilizer recommended by conventional soil and plant tissue testing!

Good fortune was also had with a two acre blackberry field. In this case, we were not only able to eliminate pesticides and reduce fertilization, but also introduced production practices hitherto considered unsuitable in the region!

By 1990 I had left my farm management position and was working as a contract consultant for my previous employer. Radionic applications shifted from agricultural applications to family health, environment, and personal growth. We made enormous problems with chronic problems that had plagued us for years. Included among these was candidiasis, a systematic yeast infection, recognized as a medical condition but seldom diagnosed or even acknowledged by physicians.

Considerable time was also spent exploring a metaphysical condition referred to as a “hole or tear in the auric field”. Auric holes may occur from a number of circumstances ranging from emotional outbursts, to head injuries, to exposure to strong electromagnetic fields. The consequences often appear as migraine-strength headaches, feelings of disorientation, and personality changes. My wife Dee, who is a psychiatric social worker, has often suspected that many of the conditions she deals with daily, derive from, or are complicated by, this condition. These could be more successfully treated if the metaphysical dimensions were recognized, and modalities like radionics brought to bear.

Additional work has also brought about an increased awareness of earth energy fields and their impact on human health and ecology. Just as humans and animals have energy meridians and chakra, the planet has energy lines (often called ley lines) and vortices. Understanding their nature and effects is a giant step in the progress toward living in harmony with the Earth.

In recent years I have also undertaken the teaching of radionics, and have a small number of students in the region. It was during teaching that I realized how poorly I understood the scientific and metaphysical explanations that underlie radionics. I also found myself without the useful teaching analogies so useful in transferring knowledge and skills. Writing a book is one of the most useful means of addressing such deficits. I hope other instructors will also find it useful.

A Fun Short Course in Beginning Radionics by “Pennsylvania Pete” Radatti

This booklet was written by our old friend “Pennsylvania Pete” Radatti for his use in conducting a Beginning Radionics program at the 2013 KRT Great Radionics Expo in Rapid City, South Dakota.

Since 2010, Pete has been introducing beginners to radionics through the group he organized, Conshohocken Radionics, which is located in southeastern Pennsylvania. As such, he has plenty of experience sharing radionics with folks for the first time in a way that is fun and enjoyable, while also illustrating the many applications of the art. His program at the 2013 Great Radionics Expo was very well received!

In just a few pages, Pete’s booklet delivers an introduction to the radionic instrument, an explanation of the “stick”, information on radionic rates, scanning techniques, use of worksheets, and strategies for working against “dark forces”. However, even the most experienced radionic researchers will find pearls of wisdom that will expand the effectiveness of their work. Best of all, the booklet is available for free at the Conshohocken Radionics website. A version for the Kindle E-Reader is also available from Amazon for \$0.99. Direct links to these files are provided below, however we also encourage you to visit the main Conshohocken page at: www.meetup.com/radionics.

2014 Planting Calendar

In the countless centuries before mankind had scalar and mainstream technology to use on their farms and gardens, people relied on a greater knowledge and sensitivity to the planet's natural cycles. Planting by the "signs" helped deliver the extra farm and garden yields that might make the difference between survival and succumbing during the year ahead.

Above-Ground: Cited are the best and next best dates for sowing, planting and transplanting all crops that produce their fruits **above the ground**, including seed beds, flowers, herbs, pasture and lawn grass, as well as all cover crops. These dates also indicate the best dates to transplant **vines and fruit trees**. These are excellent dates for **setting eggs and fishing, as well as breeding** of cows, hogs and other livestock.

Root Crops: Indicates the best dates for planting all crops that bear fruit **in the ground**, including beets, peanuts, radishes, artichokes, carrots, rutabagas and turnips. Also ideal for bedding, planting, and transplanting potatoes.

Cut & Harvest: Indicates the best dates for **cutting hay and gathering all grain crops** to achieve quick curing and good keeping. Also good for planting and transplanting of all non-fruit bearing leaf and vine plants.

Solar Magnetic Field Reversal Complete

Dr. Tony Phillips of the United States' National Aeronautics and Space Administration (NASA) has announced the sun has completed reversal of its magnetic field, which marks the midpoint of Solar Cycle 24, a 22 year long process that will culminate with another flip.

Dr. Phillips elaborated, "A reversal of the sun's magnetic field is, literally, a big event. The domain of the sun's magnetic influence extends billions of kilometers beyond Pluto. Changes to the field's polarity ripple all the way out to the Voyager probes, on the doorstep of interstellar space."

Completion of the reversal should lead to a reduction in sunspots, solar flares, coronal mass ejections, and the other solar activity that was maximized during the magnetic transition.

New Evidence: The Universe is a Hologram

The prestigious scientific journal *Nature* has just published some of the most straightforward evidence yet that the physical Universe we perceive as reality is only a holographic projection defined by energy and vibration.

In 1997, theoretical physicist Juan Maldacena published a shocking new model of reality in which gravity was explained to be the byproduct of an intricate world of infinitesimally thin, vibrating strings that exist in nine dimensions of space plus one of time. This idea provided physicists with a more simple, flat cosmos that solved apparent inconsistencies between quantum physics and Einstein's legendary theory of relativity, while also delivering a means for making calculations in the theoretical model that could be translated to the "real world" in which we exist.

Now, Yoshifumi Hyakutake of Ibaraki University in Japan and his team have published compelling evidence that supports Maldacena's conjectures. Ron Cowen reported on the *Nature* web site:

"In one paper, Hyakutake computes the internal energy of a black hole, the position of its event horizon (the boundary between the black hole and the rest of the Universe), its entropy and other properties based on the predictions of string theory as well as the effects of so-called virtual particles that continuously pop into and out of existence. In the other, he and his collaborators calculate the internal energy of the corresponding lower-dimensional cosmos with no gravity. The two computer calculations match."

These results have been supported not only by Maldacena, who is now at the Institute for Advanced Study in Princeton, New Jersey, but also by Leonard Susskind, a theoretical physicist at Stanford University in California who pioneered the idea of holographic universes. *Nature* reported Dr. Susskind's comments:

"They have numerically confirmed, perhaps for the first time, something we were fairly sure had to be true, but was still a conjecture — namely that the thermodynamics of certain black holes can be reproduced from a lower-dimensional universe."

These developments are of interest to the radionic researcher because the String Theory of reality confirms the direct and inseparable relationship between vibratory energy and the physical manifestation of matter.

In the 1999 sci-fi film *The Matrix*, the world was explained to be a virtual reality composed of strings of coded information. (Warner Brothers – all rights reserved.)

Radionics Frequently Asked Questions

Here are answers to the questions generated by the article **Introduction to Kelly Radionic Antennas** in the last issue of the *Kelly Research Report*.

What is meant by the “Phase Array” in a Phase Array Reaction Plate/Antenna?

When we look at the ocean we see the rise and fall of the surface as the planet’s energy is transmitted through the water. We describe the movement of that energy as a wave, calling the highest points as the crests and the lowest points as the troughs. Just as we describe the changing cycle of the moon as the “phases”, the “phase” of a wave merely describes where we are in the cycle of movement between crest and trough.

Within the context of radio wave transmission, antenna theory describes a phased array as “an array of antennas in which the relative phases of the respective signals feeding the antennas are varied in such a way that the effective radiation pattern of the array is reinforced in a desired direction and suppressed in undesired directions.”¹ The technique was **first developed by Nobel Laureate Karl Ferdinand Braun in 1905**, who demonstrated enhanced transmission of radio waves in one direction using three antennas.² Today Wikipedia describes usage of phase array antennas not only in broadcasting but also in the areas of radar, naval weapons control, space probe communication, weather research, optics, radio-frequency identification, and man-machine virtual reality interfacing.³ KRT Phase Array Antennas utilize plates with bifilar coils on both sides assembled vertically to create an array that maximizes vector cancellation and signal strength.

Six stacked plates turn individual antennas into an antenna array.

Why is each antenna plate in a KRT Phase Array described as having eight phases?

All KRT radionic instruments utilizes bifilar coil antennas to convert the signal output of the instrument into the longitudinal or “scalar” wave that **provides the pathway back to the energetic realm from which all things flow**. While the general term “bifilar coil” simply describes “an electromagnetic coil that contains two closely spaced, parallel windings”,⁴ KRT bifilar coils are arranged such that one of the winding provides a clockwise direction of rotation to the outgoing signal, while the second winding in the circuit provides a counterclockwise direction of rotation. As such, the Classic Rub Plate provided with a Personal Instrument and the secondary spool-style antennas in a Beacon or Workstation may accurately be described as “Two Phase” antennas.

The signal rotates clockwise on the black path from edge to center, then counterclockwise on the green path from center back to the edge.

However, each of the antenna plates found in a Phase Array has identical bifilar coils on both sides of the plate. As a result, the total strength of the signal on one side of an antenna plate is the sum of signals found on that side plus the weaker signals that leak *through* the silicon circuit board from the identical coil on the other side. These weaker signals, which are also rotating in clockwise and counterclockwise directions, represent the third and fourth phases of activity found on that side of the antenna plate. Because the same processes take place on the *other* side of the antenna plate, we describe each plate as having a total of eight phases of signal activity.

For a comparable situation, consider the heating of two apartments that share a common wall. The family living in Apartment A gets most of their heat from the furnace in their own apartment, but also receives the benefit of a smaller amount of heat that leaks through the common wall since the family living in Apartment B has a furnace of their own. We can stretch this metaphor a bit further by noting that most furnace systems have separate ducts for two phases of activity; the supply ducts bring warm air from the furnace to the living spaces, while the return ducts carry the cooling air from the living space back to the furnace for reheating. So the total heat available for the family in Apartment A includes the two phases of their furnace system plus a smaller contribution of heat through the wall from the two phases of the furnace system in Apartment B – a total of four phases.

The same result is generated when we switch our perspective to the family in Apartment B. That family has two phases of thermal energy moving through the supply and return ducts of their furnace system, but they also receive the smaller benefit of the heat passing through the wall from the furnace system in Apartment A. Together we can describe a total of eight phases of heat energy flowing through the furnace systems of the apartments of both families, just as we describe each dual-sided KRT Phase Array antenna plate as having a total of eight phases of signal activity.

Can I use my Classic Rub Plate or Original Phase Array with a new Perfect Spiral?

Absolutely! Built into every new Perfect Spiral Phase Array Antenna is an extra pair of output/input jacks that deliver **unlimited expansion capability** to every instrument. These jacks may be used to connect additional Perfect Spiral Antennas, Original Phase Array Antennas, or Classic Rub Plates to any Kelly instrument, including Replicators, Personal Instruments, Seekers, Beacons, or Workstations.

This arrangement provides ultimate flexibility to the researcher, as the **new Perfect Spiral Antennas may be combined with existing hardware** to deliver maximum broadcast capability for those projects requiring maximum results, or utilized individually with other devices.

Top: Classic Rub Plate, Original Phase Array and Perfect Spiral Antenna
Bottom: Perfect Spiral Antenna combined with Original Phase Array

The all-new Perfect Spiral Antennas deliver:

- **Exceptional sensitivity** as a reaction plate.
- Flawless interlocking clockwise and counterclockwise spiral geometry with **no right angles or straight lines to impede the speed** of the outgoing signal.
- **Pure gold** plating atop copper for maximum throughput of the outgoing signal.
- Airtight high resonance polycarbonate enclosure for a **buttery smooth reaction**.
- **Unlimited expansion** when you need it, endless flexibility where you need it.
- **Instant compatibility** with all Kelly radionic antenna and instruments.
- Each antenna includes a pair of 18" long extension leads to simplify unit integration.
- No price increase until March 1, 2014.

Now **you** decide how many antennas to use with each radionic instrument!

THE KRT **PERFECT SPIRAL** PHASE ARRAY REACTION PLATE/ANTENNA

	<u>Before 3/1</u>	<u>After 3/1</u>
Four Plate/32 Phase Array.....	\$375.00.....	\$395.00
Five Plate/40 Phase Array.....	\$450.00.....	\$495.00
Six Plate/48 Phase Array.....	\$525.00.....	\$595.00
Replace 18" leads with 36" leads.....		\$20.00

Save big on discontinued Original Phase Arrays!

The last of the Original Phase Array Antennas are **priced to move**. These units have the new gold plated Perfect Spiral antenna plates in the classic oak enclosures and work flawlessly with any instrument and the new Perfect Spiral Antennas. **Order today! Quantities are limited!**

Six Plate/48 Phase Array.....	Save 39%! \$350.00	\$525.00
Twelve Plate/96 Phase Array.....	Save 29%! \$750.00	\$1055.00

2014 KRT Events

All KRT radionics courses will be delivered by **Ed Kelly** and will include a balance of radionic theory, practical application, and hands-on activities that will equip participants to apply radionics to the energetic world that flows through us all. Ed is a uniquely qualified instructor with years of experience building radionic instruments, working with senior instructors, and writing about this amazing field.

February 1-2: KRT Basic Radionics

Saskatoon, Saskatchewan

A two-day introduction to the basic theory and hands-on operation of the radionic instrument for the new beginner and anyone seeking a refresher. Topics will include collection of samples and witnesses, energetic analysis and radionic balancing, use of reagents, use of worksheets, and cold scanning. Participants will practice using the radionic instrument to complete analysis worksheets on water and soil samples brought from home or taken at the site of the class, then utilizing the broadcast mode to energetically balance those elements. *\$400 each or \$250 for retake or with purchase.*

February 5: KRT Advanced Topics in Radionics

Saskatoon, Saskatchewan

A one-day course designed to explore advanced dimensions of knowledge. Participants will cold scan a two bank/four dial rate focused on clearing one or more specific obstacles from their lives, plus complete and discuss the results found on the Psychic Attack sheet. Also covered will be advanced reagent selection and radionic harmonic matching. *\$150 per person.*

May 17-19: KRT Fundamentals of Radionics

The Dome, Lakemont, Georgia

An introduction to the basic theory and hands-on operation of the radionic instrument. This three-day course is designed for the brand new beginner and anyone wanting a refresher. Topics will include the history and theory of radionics; collecting samples and witnesses; energetic analysis and radionic balancing; use of reagents, cold scanning, and use of the Water, Plant/Soil, and Animal Analysis worksheets. Participants will practice using the radionic instrument to complete analysis on water, soil, and animal samples brought from home or taken at the site of the class, then utilizing the broadcast mode to energetically balance. *\$600 each or \$350 for retake or with purchase.*

May 20: KRT Advanced Topics in Radionics

The Dome, Lakemont, Georgia

A one-day course designed to explore advanced dimensions of knowledge. Participants will cold scan a two bank/four dial rate focused on clearing one or more specific obstacles from their lives, plus complete and discuss the results found on the Psychic Attack sheet. Also covered will be advanced reagent selection and radionic harmonic matching. *\$150 per person.*

August 9-10: KRT Great Radionics Expo

Columbus, Ohio

A grass-roots celebration of radionics and the energetic arts featuring 24 programs by researchers working in a wide variety of areas, including crop/herd agriculture, personal healing, and Earth energy engineering. The Expo Market will put participants face-to-face with the manufacturers of radionic equipment, esoteric technology, and information. *\$300 per person or \$200 for registration before May 31. \$50 off for spouse/family.*

August 11-12: KRT Basic Radionics

Columbus, Ohio

A two-day introduction to the basic theory and hands-on operation of the radionic instrument for the new beginner and anyone seeking a refresher. Topics will include collection of samples and witnesses, energetic analysis and radionic balancing, use of reagents, use of worksheets, and cold scanning. Participants will practice using the radionic instrument to complete analysis worksheets on water and soil samples brought from home or taken at the site of the class, then utilizing the broadcast mode to energetically balance those elements. *\$400 each or \$250 for retake or with purchase.*

Other Energetic Events in 2014

This is a golden age for sharing ideas in radionics and other energetic arts! Consider taking part in a program conducted by one or more of these teachers, healers, and radionics researchers. Each of them has a unique perspective to share.

Ongoing: *Conshohocken Radionics* **Conshohocken, Pennsylvania**
Pennsylvania Pete Radatti's group now has 70 members and hosts regular meetings, classes, and discussion groups on radionics. Find out about upcoming events at: www.meetup.com/radionics

Ongoing: *Wisdom Quest Group* **Western Ohio**
Bruce M. Forrester's Wisdom Quest Group brings together an active membership and experts in a variety of esoteric and mainstream topics. Find out about upcoming Wisdom Quest events at: www.zephyrtechnology.com/html/wisdom_quest_group.HTM

Ongoing: *Personal Radionics Training* **Las Vegas, New Mexico**
Rev. Dr. Karen Stashek provides one-on-one, personalized radionics training by appointment only. Instruction is available at the Beginner, Intermediate, or Advanced levels. To schedule a course or session please contact Karen at 505-425-9003, or via email at: karenstashek@desertgate.com.

February 3-4: *Western Canadian Annual Producer's Conference* **Saskatoon, Saskatchewan**
KRT is very proud to return to Canada for a third year to participate in the Western Canadian Annual Producer's Conference, put on by our friends at **Back To Your Roots Soil Solutions** - a company focused on building nutrient dense food for a healthy world. If the 2014 program is anything like previous years, this will be an opportunity to receive eye-opening, life-changing information about agriculture, the food we eat, and the world around us. To register to participate in the Western Canadian Annual Producer's Conference please call the BTYR offices at 306-747-4744.

February 8-10: *Beginner's Radionics* **Curryville, Missouri**
Ginny Blankenship's class for beginners will be held at The Cabin, a log building that is located in a serene environment. Ginny brings a healer's perspective to radionics, with years of experience and certifications in several energy modalities, including five years of service as Pat Schmidt's protégé and assistant teacher. Says Ginny, "You will love the atmosphere and you will love my "No fear" approach to radionics. In class I hope to expand on the mental, emotional, spiritual, and physical aspects of healing using a step-by-step process that utilizes radionics to its fullest potential." Please contact Ginny at 573-680-5940 or visit her website at: www.woodswalker7.com.

February 9: *Reams for Humans* **Omaha, Nebraska**

February 10: *Reams for the Soil*

February 11-12: *Beginners Radionics for Everyone*

February 13: *Advanced Radionics and Potentizing*

These classes will be taught by **Steve Westin**, a senior instructor with decades of experience using radionics on the farm and in the home. Steve was personally trained by KRT founder Peter J. Kelly and hand-picked by Peter to share this knowledge with the world. Steve's classes are infused with esoteric knowledge that stretches beyond radionic instrumentation, providing participants with a wealth of additional information and techniques for capturing success. For more information please contact Steve at 269-692-2771, or via email at: merlinsworld@att.net.

February 21-23: *Advanced Radionics* **Des Moines, Iowa**

Marty Lucas of Every Advantage Consulting will teach unique concepts and cutting-edge procedures discovered and developed to identify and resolve the most persistent problems found in crops, livestock, and the home. A variety of innovative tools will be demonstrated for making the most of the radionic instrument. Participants must be fully proficient in basic radionics. For more information or to register contact Marty at 515-270-2300, or via email at: marty@everyadvantage.net.

February/March: *GEET Training Course* **Iowa**
Global Environmental Energy Technology (GEET) utilizes a self-induced plasma generator to reduce engine emissions while improving performance. This class will be taught by Earth Life Enterprise, a licensed dealer. For exact dates and more information please call **Michael McNeill** at 515-295-5513.

March: *Radionics and Dowsing: Basic and Advanced Classes* **Blue Earth, Minnesota**
These classes will be taught by **Tim Lippert** in Blue Earth, Minnesota - exact dates to be determined. The Basic Class covers the fundamentals of dowsing and the operation of radionic equipment for analysis and balancing. The Advanced Class covers electronic potentizing, anapathics, advanced scanning techniques and other subjects. Tim has years of experience applying radionics and dowsing to real situations on real farms. To enroll in the class or for more info, please contact Livestock Innovations, Inc. at 507-787-2397 or via email at: tdlviking@yahoo.com

March 29-30: *Advanced Radionics: Class 8* **New York City**
This class will be taught by **Dr. Linda Lancaster** of the Light Harmonics Institute and is part of an ongoing certificate program. For details and to register call Light Harmonics at 505-989-4610, or email: info@lightharmonics.com.

July 21-25: *Advanced Medical Radiesthesia & Radionics* **Santa Fe, New Mexico**
This five day intensive course will be taught by **Dr. Linda Lancaster** of the Light Harmonics Institute. Participants completing the program will be awarded a certificate. For details and to register call Light Harmonics at 505-989-4610, or email: info@lightharmonics.com.

July 26-27: *Electromagnetic Energy Cooking Class* **Santa Fe, New Mexico**
This two day course will be taught by **Dr. Linda Lancaster** of the Light Harmonics Institute and is open to anyone interested in healing and health. For details and to register call Light Harmonics at 505-989-4610, or email: info@lightharmonics.com.

September: *Dynamics of Homeopathy Module 1* **Santa Fe, New Mexico**
In Energy Medicine, Homeopathic principles are utilized and the remedies can be the missing link between the mother, layperson, natural healer and the doctor. In this certificate module **Dr. Linda Lancaster** will help the student to understand the role Homeopathy plays in an Energy Medicine Natural Healing Practice. Polycrystals, Cell Salts, Drainage and Acute remedies will be discussed and practical applications of these remedies will be shown. For details and to register call Light Harmonics at 505-989-4610, or email: info@lightharmonics.com.

Knowledge is the food of the soul. - Plato

KRT Radionics Workshops: **Saskatoon, Saskatchewan**

KRT is very proud to return to Canada for a third year to participate in the Western Canadian Annual Producer's Conference on February 3 and 4, put on by our friends at **Back To Your Roots Soil Solutions** - a company focused on building **nutrient dense food**. If the 2014 program is anything like previous years, this will be an opportunity to receive eye-opening, life-changing information about agriculture, the food we eat, and the world around us. *To register to participate in the Western Canadian Annual Producer's Conference please call the BTYR offices at 306-747-4744.*

In conjunction with the Western Producer's Conference, KRT's Ed Kelly will be delivering a pair of radionics workshops. A two-day **Basic Radionics** course will immediately precede the conference on February 1 and 2, then a single day of **Advanced Topics in Radionics** will follow on February 5.

BASIC RADIONICS: February 1-2, 2014

Saskatoon, Saskatchewan

An introduction to the basic theory and hands-on operation of the radionic instrument. This course is designed for the brand new beginner and anyone wanting a refresher on the basics. Topics include:

- History and Theory of Radionics
- Samples and Witnesses
- Energetic Analysis and Balancing
- Water & Plant/Soil Analysis Worksheets
- Use of Reagents: Physical and Electronic
- Basic Rate Scanning/Electronic Dowsing

Participants will practice using and developing a touch for the radionic instrument by completing analysis worksheets on water and soil samples brought from home or taken at the site of the class, then utilizing the instrument in the broadcast mode to energetically balance those elements.

Each individual and family/friend enrollee will be provided with following materials and information:

- *Radionics - Book 2: Applied Radionics*
- Set of 10 KRT radionic worksheets
- Two 300 ml Griffin beakers
- One year: Kelly Research Report

Individual Enrollment

\$400.00

Retake or with Purchase of a New Instrument

\$250.00

Instrument Rental (Supplies are limited!)

\$50.00

ADVANCED TOPICS IN RADIONICS: February 5, 2014

Saskatoon, Saskatchewan

A one-day course designed to explore advanced dimensions of knowledge. Participants will cold scan a two bank/four dial rate whose focus is on clearing one or more specific obstacles from their lives, plus complete and discuss the results found on the Psychic Attack sheet. Participants must have a working knowledge of their radionic instrument. Topics covered will include:

- Advanced Rate Scanning for Accuracy
- Case Study: Psychic Attack Worksheet
- Advanced Reagent Selection
- Radionic Harmonic Matching

Individual Enrollment

\$150.00

NOTE: The universal radionic concepts covered in class will equip participants to conduct radionic research in any area of interest. However, human health issues cannot be covered at any time. Regrettably, any questions concerning human health will have to be declined.

- Who:** Courses taught by Ed Kelly, President of KRT. Ed is a uniquely qualified instructor with a lifetime building radionic devices and writing about this amazing art.
- Where:** Saskatoon Inn, 2002 Airport Drive, Saskatoon, SK, Canada S7L 6M4
- Lodging:** *This meeting will be held at the Saskatoon Inn Hotel & Conference Centre. A special group rate of \$139.99 plus tax is available by asking for "Back To Your Roots". Call toll free: 800-667-8789 to book your room! Visit: www.saskatooninn.com to see photos of this lovely hotel. Complimentary shuttle service is provided to and from Saskatoon International Airport.*
- When:** Classes will run from 8:30 am to 5:00 pm each day, with breaks.
- Bring:** Any Hieronymus-type radionic instrument, plus samples of water, soil, plants, and/or animals from home. *Please order as soon as possible if a new instrument is required from KRT.* A limited number of instruments will be available for rent from KRT.
- Food:** Participants will be responsible for their own meals.
- Register:** All prices are in US dollars. As such, all registration must be paid by credit card or PayPal. Call to register via credit card at (706) 782-2524, or complete and fax the following enrollment form to (706) 782-1047. PayPal payments should be directed to: sales@kellyresearchtech.com. Send other correspondence to KRT, Inc., PO Box 128, Lakemont, GA, 30552, USA.

KRT Radionics Workshops: Lakemont, Georgia

Come to The Dome and see where Kelly Research Technologies was born! Courses will be delivered by Ed Kelly and will include a balance of radionic theory, practical application and hands-on activities that will equip course participants to apply radionics to the energetic world that flows through us all.

FUNDAMENTALS OF RADIONICS: May 17– 19, 2014 **The Dome, Lakemont, Georgia**

An introduction to the basic theory and hands-on operation of the radionic instrument. This course is designed for the brand new beginner and anyone wanting a refresher on the basics. Topics include:

- History and Theory of Radionics
- Samples and Witnesses
- Energetic Analysis and Balancing
- Water & Plant/Soil Analysis Worksheets
- Animal Analysis Worksheet
- Supplemental Worksheets
- Use of Reagents: Physical and Electronic
- Basic Rate Scanning/Electronic Dowsing

Participants will practice using and developing a touch for the radionic instrument by completing analysis worksheets on water and soil samples brought from home or taken at the site of the class, then utilizing the instrument in the broadcast mode to energetically balance those elements.

Each individual and family/friend enrollee will be provided with following materials and information:

- *Radionics - Book 2: Applied Radionics*
- Set of 10 KRT radionic worksheets
- Two 300 ml Griffin beakers
- One year: Kelly Research Report

Individual Enrollment	\$600.00
Retake or with Purchase of a New Instrument	\$350.00
Instrument Rental (Supplies are limited!)	\$50.00

ADVANCED TOPICS IN RADIONICS: May 20, 2014 **The Dome, Lakemont, Georgia**

A one-day course designed to explore advanced dimensions of knowledge. Participants will cold scan a two bank/four dial rate whose focus is on clearing one or more specific obstacles from their lives, plus complete and discuss the results found on the Psychic Attack sheet. Participants must have a working knowledge of their radionic instrument. Topics covered will include:

- Advanced Rate Scanning for Accuracy
- Case Study: Psychic Attack Worksheet
- Advanced Reagent Selection
- Radionic Harmonic Matching

Individual Enrollment	\$150.00
------------------------------	-----------------

Participants in both workshops are also welcome to complimentary rides on KRT's BETAR Master Edition Focused Vibroacoustic Sound Therapy system, also located at The Dome in Lakemont. For more information on BETAR please visit: www.betar.com.

NOTE: The universal radionic concepts covered in class will equip participants to conduct radionic research in any area of interest. However, human health issues cannot be covered at any time. Regrettably, any questions concerning human health will have to be declined.

Who: Courses will be delivered by Ed Kelly, President of KRT. Ed is a uniquely qualified instructor with years of experience building radionic devices, working with senior instructors, and writing about this amazing field.

Where: The Dome at KRT: 121 Oasis Road, Lakemont, Georgia 30552

When: Classes will run from 8:30 am to 5:00 pm each day, with breaks.

Bring: Any Hieronymus-type radionic instrument, plus samples of water, soil, plants, and/or animals from home. *Please order as soon as possible if a new instrument is required from KRT.* A limited number of instruments will be available for rent from KRT.

Food: Light refreshments will be provided during class. Participants will be responsible for their own meals. A variety of restaurants is available in the area.

Lodging Recommendations:
