

THE SEEKER

The Seeker was developed as a direct response to your requests for a powerful radionics instrument with 360 degree rate dials for exploration, development and use of “negative” rate groups within the Hieronymus-based rate system. This two bank unit has all of the features and flexibility of the **Kelly Personal Agricultural Analyzer**, some of the best from the **Kelly Large Agricultural Workstation**, and the enhanced information density generated by an integrated **Phase Array Antenna** – all built into a handsome oak cabinet. **The Seeker** is a deluxe personal instrument for those researchers who want the freedom to explore new dimensions of knowledge.

- **Standard:** Two banks of parallel plate capacitors that generate analog scalar wavelengths **as accurate as the sensitivity of the operator**.
- **Standard:** Large, easy-to-read rate dial markings improve accuracy and user effectiveness. **360 degree** enumeration allows exploration and use of the entire scalar energy longitudinal waveform.
- **Standard:** Cutting-edge **silver Sephorah** geomantic signal multiplier increases broadcast effectiveness in the face of fluctuating/fading global magnetic fields.
- **Standard:** An integrated four-plate, 32 **Phase Array Antenna** improves signal density for improved information delivery. Add an external moebius coil rub plate antenna or a *second* external Phase Array Antenna using the **auxiliary input** connectors.
- **Standard:** 10-turn intensity dial delivers **exceptional precision** when dowsing for intensities and broadcast times.
- **Standard:** Built-in **10 hour timer** eliminates over-broadcasting.
- **Standard:** Flexible external input panel allow easy addition of a grounding cable, a large sample well, an electronic potentizer and/or an external frequency/signal generator. **Fully compatible** with all Kelly accessories.
- **Standard:** Beautiful **hand rubbed oak** cabinet, upgradeable to a custom laminate color finish.

THE SEEKER: A KELLY AGRICULTURAL RADIONIC ANALYZER.....\$2,450.00

UPGRADE! Every **Seeker** agricultural radionic analyzer comes equipped with a factory-installed 32 Phase (4 plate) Antenna. Save big by upgrading to a 40, 48 or 56 phase array at the time of purchase:

Integrated Phase Array	Parallel Plates	Phase Array Price	Use with External Phase Array Antennas	
			40 Phase (5 plate)	80 Phase (10 plate)
40 Phase	5	\$75	48 Phase (6 plate)	96 Phase (12 plate)
48 Phase	6	\$165	56 Phase (7 plate)	--
56 Phase	7	\$260		

UPGRADE! Personalize your Seeker or Beacon with a custom laminate color finish for just **\$199.00!**
